

E-Parking XS and XL

Intelligent charging preparation

E-Parking XS charging column for up to 3.7kW

- ❑ Sturdy universal charging column for individual attachment to the parking system
- ❑ Slim design – does not get in the way, even in narrow parking spaces
- ❑ CEE 3-pin socket – country-specific adapters available worldwide
- ❑ Defined and protected wiring in a cable chain
- ❑ Transfer box for connection to the building's mains network or a load management system
- ❑ Retrofitting possible on many KLAUS Multiparking parking systems

Scope of supply:

- Universal charging column XS – CEE charging socket – 3.7kW 230V 1~16A
- Cable chain
- Highly flexible special cables for use in cable chains
- Transfer box with terminals and connection diagram
- Brackets with installation material

Note:

Please contact a certified electrician to discuss the options for connecting our charging column to your building's mains network.

E-Parking XL charging column for up to 22kW

- ❑ Sturdy universal charging column for individual attachment to the parking system
- ❑ Slim design – does not get in the way, even in narrow parking spaces
- ❑ Type 2 charging socket with charging plug lock
- ❑ Defined and protected wiring in a cable chain
- ❑ Transfer box for connection to charging electronics or a load management system
- ❑ Retrofitting possible on many KLAUS Multiparking parking systems

Scope of supply:

- Universal charging column XL – Type 2 charging socket – 22kW 400V 3~ 32A
- Cable chain
- Highly flexible special cables for use in cable chains
- Transfer box with terminals and connection diagram
- Brackets with installation material

Note:

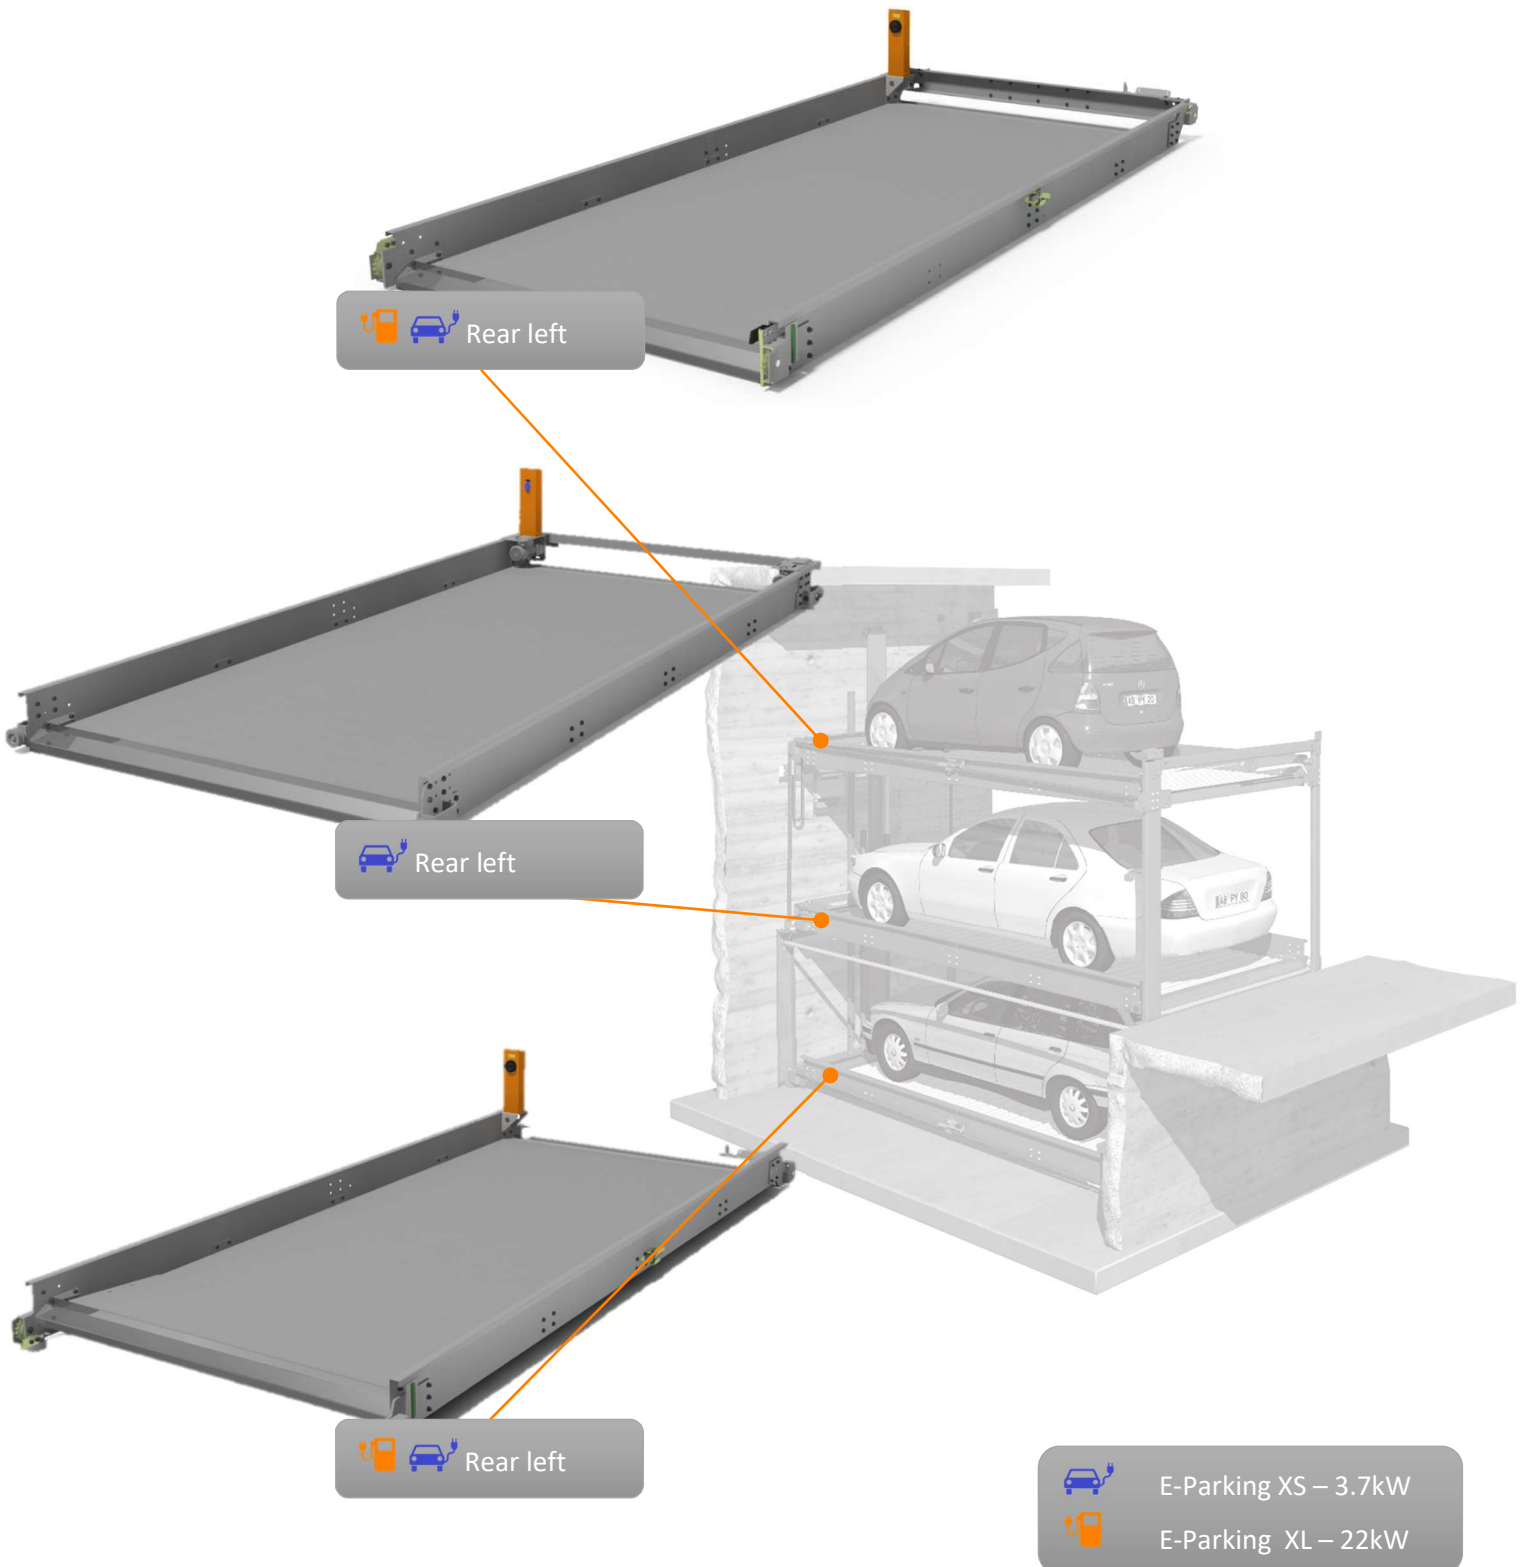

Please consult a certified electrician for information about ensuring an adequate charging infrastructure and the possibility of connecting our charging column to your charging electronics (wall box).
